

Frisbee

FRISBEE

Our latest ride - a real crowd pleaser!

It starts spinning anti clockwise, builds through an off centre motion with centrifugal force pushing you to the edges of your seat.

As you get comfortable with the motion it begins to raise whilst gathering speed to now put you into a wave like motion. Up and down, round and around, awesome!

AREA REQUIRED:	15 metre diameter
ACCESS:	Semi trailer mounted
INCLUDES:	Operators, PA system, music, lights and its own power
SUITABLE FOR:	People 110cm and over
CAPACITY:	40 riders at a time
TURNOVER:	600 riders per hour
